## THINGS YOU SHOULD REMEMBER

WHAT YOU NEED

Due to the size and the scope of the Resort there are many opportunities for employees to gain additional employment and cross training.
Most residents are able to save a good deal of money whilst living at Ayers Rock. Living costs are generally not as high as in a city and there are discounts and tax benefits to help you save.
Voyages Indigenous Tourism Australia is committed to the training and development of its employees and extensive training programs are conducted regularly.
Most employees find it very easy to settle in, as the residents of Ayers Rock are very friendly and helpful.
Being in such a unique area filled with history and wildlife - enjoying the great outdoors and vast landscape is a popular with residents
CLIMATE - A "dry" atmosphere with temperatures across the year varying from a hot 45°C in Summer months (December - March) to a cool 19°C in winter months (and chilly nights down to as low as -2°C!).
Being a Resort with approximately 1000 residents, people find that they live and work together, which can at times be restrictive on your personal privacy
Summer months can be an interesting time within the Resort, with the extremes in temperature and the influx of insects and interesting wildlife. Due to the natural environment that the Resort is situated in, we are subject to a variety of creepy crawly fauna, i.e. snakes, spiders, etc. however don't be alarmed! All you need is a little common sense.
All in all, Ayers Rock Resort is a great place to live. Where else can you boast no pollution, and no traffic (well we do have a roundabout) while offering a great lifestyle!
